

# ACEC Minnesota 2025 Engineering Excellence Awards

## Full Judging Criteria

Below are the categories that will be used by our judging panel to evaluate Engineering Excellence Awards Project Entries – each category is equally weighted as 20% of total score. The questions below the category are also provided to judges to consider all aspects of each category. Plan your entry materials so that the judging panel will have clear answers to these questions.

### 1. Uniqueness and/or Innovative Applications of New or Existing Techniques:

- Does the entrant's contribution to the project demonstrate the use of a new science or a breakthrough in the general knowledge of engineering?
- Does the entrant's contribution to the project represent a unique application of new or existing technology, techniques, materials or equipment?

### 2. Future Value to the Engineering Profession and Enhanced Public Awareness/Enthusiasm of the role of engineering:

- Will the entrant's contribution to the project redefine current engineering thinking?
- Does the entrant's project increase public awareness/ enthusiasm about the role of engineering in their everyday lives?

### 3. Social, Economic and Sustainable Development Considerations:

- Do the solutions identified produce secondary benefits of value to the community environment?
- Does the entrant's approach provide society with social, economic, or sustainable development benefits?
- Does the entrant's contribution to the project improve the health, safety or welfare of the public or affected environment?

### 4. Complexity:

- Did the entrant's efforts successfully address highly complex criteria or unique problems?
- Were extraordinary problems of site, location, hazardous conditions, project requirements, or similar elements present?
- Did the entrant's solutions require the use of out-of-the-ordinary technology or ingenuity for achievement of the project's goals?

### 5. Successful Fulfillment of Client/Owner Needs:

- Did the entrant successfully engage the client/owner in the overall project development process?
- Did the entrant introduce an economical and cost-effective solution?
- How did the final cost compare to the original budget estimate?
- How closely does the entrant's solution meet the total goals of the client/owner?
- Did the entrant meet the client's time schedule?
